KYALO

Mathematics & Computer Science Student | Aspiring Software Developer

Email: dominicmulei3013@gmail.com | GitHub: github.com/Kyalo-Dominic

LinkedIn: linkedin.com/in/dominickyalo3540

PROFILE

Mathematics and Computer Science student at Multimedia University of Kenya, pursuing a BSc in Mathematics and Computer Science (Applied Option), with expected graduation in 2027. Interested in software development, applied mathematics, data-driven problem solving and AI. Seeking an internship or industrial attachment to apply academic knowledge, strengthen practical engineering skills and contribute to useful software projects.

EDUCATION

Multimedia University of Kenya

BSc Mathematics and Computer Science (Applied Option) | Expected graduation: 2027

Relevant study areas include calculus, data structures and algorithms, ordinary differential equations, mathematical modelling, partial differential equations, measure and integration, software engineering, research methods and multimedia systems.

TECHNICAL SKILLS

Programming languages: Python, Java, C, C++, JavaScript

Web development: HTML, CSS

Frameworks: Django

Database: PostgreSQL, SQL

Tools and workflow: Git, GitHub

PROJECTS

Top Mark Hub (TMH) — Education Technology Platform

An ongoing project aimed at supporting secondary-school academic management, student marks and report cards, and academic performance analysis. Project direction includes Python, Django and PostgreSQL.

Kyalo Portfolio — Personal Portfolio Website

A GitHub Pages portfolio built with HTML, CSS and JavaScript, featuring dedicated pages for technical skills and project overviews, responsive navigation and project image placeholders.

Springs Hotel & Spa — Website Project

A web development project represented in the portfolio. Add the original hosted URL and confirmed implementation details when available.

Katheka-Kai Senior School — Website Project

A school-related website project represented in the portfolio. Add the original hosted URL and confirmed implementation details when available.

Kaisa Web Development — Website Project

A web development project represented in the portfolio. Add the original hosted URL and confirmed implementation details when available.

AREAS OF INTEREST

Software engineering • Applied mathematics and mathematical modelling • Data science • Artificial intelligence and machine learning • Quantitative finance

CAREER OBJECTIVE

Seeking an internship or industrial attachment in software development or a related technical field, with an opportunity to learn from experienced teams and contribute to real-world projects.

This CV uses currently available details. Add verified work experience, certifications, grades, achievements and project URLs before submitting applications where relevant.
