PROFESSIONAL PROFILE

Fourth-year BSc Mathematics and Computer Science student (Applied Option) at Multimedia University of Kenya, with a strong foundation in applied mathematics, programming, web development and relational databases. Independently designs and develops web projects, including deployed websites and Top Mark Hub, an education platform in development using Django and PostgreSQL. Seeking an internship or industrial attachment to contribute analytical thinking, technical curiosity and hands-on project experience to a software or IT team.

TECHNICAL SKILLS

Programming	Python, JavaScript, SQL
Web / Frameworks	Django, HTML5, CSS3, responsive web design
Databases	PostgreSQL, MySQL, relational database concepts
Tools / Environment	Git, GitHub, Visual Studio Code, Linux, WSL
Professional strengths	Analytical problem-solving, logical reasoning, independent learning

EDUCATION

BSc Mathematics and Computer Science — Applied Option

Multimedia University of Kenya | 2023–2027 (expected) | Fourth year

Reported GPA: 3.88 / 4.00; reported average grade: A.

Relevant coursework: Data Structures and Algorithms, Calculus, Ordinary Differential Equations, Partial Differential Equations, Numerical Analysis, Mathematical Modelling, System Analysis and Design, Software Engineering, Internet Application Programming, and Object-Oriented Programming.

Katheka-Kai Secondary School

2018–2022

PROJECTS & PRACTICAL EXPERIENCE

Selected work | Live project links included

Top Mark Hub (TMH) — Education Technology Platform

IN DEVELOPMENT • Project overview

Developing an online learning platform for secondary-school learning resources and academic reporting. Work includes a Django and PostgreSQL foundation, role-based portal concepts, and bulk report-card generation with downloadable PDF/ZIP output.

Personal Software Development Portfolio

DEPLOYED • Live portfolio

Designed and deployed a responsive portfolio using HTML, CSS and JavaScript, with dedicated technical skill pages and project showcases. Published through GitHub Pages to present projects and skills to recruiters.

Springs Hotel & Spa Website

DEPLOYED • Live website

Designed and published a hospitality website, applying front-end layout, visual presentation and navigation principles.

Katheka-Kai Senior School Website

DEPLOYED • Live website

Designed and published a school website, presenting school information through a structured front-end interface.

TRAINING & COURSE COMPLETIONS

SoloLearn — completed: Python Developer, Python Intermediate, Introduction to Python, Prompt Engineering, Java Intermediate, Introduction to Java, Introduction to SQL, SQL Intermediate, Introduction to CSS, Introduction to HTML, and Introduction to C.

In progress: Vibe Coding, Web Development, JavaScript Intermediate, and Coding for Data.

ADDITIONAL INFORMATION

Languages: English, Kiswahili

Interest: Piano

Opportunity sought: Internship / industrial attachment in software development, backend development, web development, data science/AI or IT.
